Float Aluminum Bar 2.8m Matte Black

Part Number: 086-1AUSI-MB

Cut-to-size Aluminum Bars give you the flexibility to completely customize the FLOAT shelving system. Join sections to span the entire room or cut bars down to make small single FLOAT shelves

Finish	Matte Black
Length	280 cm
Material	Aluminum

Product Description

Eureka FLOAT is a chic, wall mounted modular shelving system that is extremely versatile and customizable. FLOAT can be arranged in virtually any configuration you can imagine via the multitude of available connectors. FLOAT shelving system can be cut-to-size and assembled into countless designs to either “float” on the wall, or integrate into new or existing cabinetry.

Product Advantages

- Cut-to-size aluminum bar
- Cut Length: Outside Length - 42mm
- 2800mm length
- Use Mounting Template to drill holes for corner connectors

Important Information

Float Bar Profiles are designed to fit 18mm thick shelves flush, so use spacer bracket kits for boards of 8 to 16mm thicknesses. It is possible to mount 19mm (3/4") shelves, we recommend edgebanding your panel as it will sit proud 1mm. For 18mm or less shelves, edgebanding is optional as the shelf sits hidden behind the aluminum profile.

Product Application

Shelf Dimensions

Wood Shelf:

- Length minus 42mm
- Depth minus 42mm

Glass Shelf:

- Length minus 42mm
- Depth minus 45mm

Technical Specifications

Eureka FLOAT Aluminum Profile Bar

Item Description	
2800mm Matte Black	086-1AUSI-MB

Material: Aluminum
Dimensions: 2800 x 20.3 x 20.3 mm

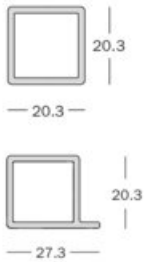
Eureka FLOAT Aluminum Profile Bar with Shelf Holder

Item Description	Part#
2800mm Matte Black	086-2AUSI-MB

Material: Aluminum
Dimensions: 2800 x 27.3 x 20.3 mm

- Cut to size using a straight cut on a chop or mitre saw
- Use drilling template jig to mark and drill holes
- Drill 3mm pilot, 7mm screw hole, and then countersink
- Assemble using various connectors
- Fix to wall using mounting clips (086-F1FXE-MB)

Dimensions



Important Information*

Profile bar with shelf holder (086-2AUSI-MB) fits 18mm boards flush. With the use of the the wood spacer kit (086-K2PXE-MB) you can adapt to other material thicknesses.

Bar Cutting Length

Cut Size: Desired/Measured Outside Length - 42mm.
This general formula accounts for the corner joint connector size and provides some installation tolerance. This works for a basic cube in terms of height, width and depth measurements.
For more complex structures, see technical specification for examples.
