Product Description

The built-in handle Raso is characterized by its movement. When it isn't being used, its flat shape leaves it perfectly integrated to the piece of furniture. When it is in use the lower part lifts with a tilting movement so allowing it to be pulled on without any complications. It's simple, functional and very discrete. It is available in a shiny chrome or a brushed nickel finish and comes in two sizes (70mm and 152.5mm in width). It's neutral and discrete and can adapt to any type of decoration.

Raso belongs to the Zamak line. Model 0091
Designed by Viefe® Team.
