Projection (Height)	13.5 mm
Width	52 mm

Product Description

Low is a minimalist, integral handle. It consists of a simple, rectangular, metallic frame with rounded edges which adapt perfectly to all types of bathroom and kitchen. In rustic style kitchens it provides a more casual and contemporary touch, altogether a more interesting look. The design stands out in particular on bathroom furniture with white or grey tones.

During the installation, first the carpenter applies the necessary fittings to the door or drawer and, if the surface requires varnishing, the fittings are also varnished. The handle is then placed in position. As a result, only the frame and the interior part of the handle can be seen and the rest of the drawer or door has the same colour. It is available in shiny chrome or brushed nickel, both in sizes of 64mm or 192mm.

Low belongs to the Zamak line. Model 0243
Designed by the Viefe® team.
