Product Description

A graceful wake-like shape that is super fine and thin (at only 1.2mm thick) makes Noma an element that really stands out in the interior design of any kitchen or bathroom. It catches the eye not only for its aesthetic harmony, but also for its uniqueness. Is it a wave? Is it a curved leaf? Is a tongue-like figure that reaches in between cupboards and drawers.

Its design can be interpreted in many different ways, but its comfort and ergonomics in only one. It comes in two sizes of 200mm and 350mm which come in a shiny anodized finish and also in a stainless-steel look. It is easily fitted and is simply screwed on to the rear part of the door or drawer with 2 screws. It's that easy for such an amazing handle!
