### Product Description

Brikk: an innovative handle, simple to use and at the same time very versatile. Made of aluminum and possessing smooth curves, it really makes it comfortable and easy to use. With a long profile and works perfectly well regardless of where you hold and pull it. It has been especially designed to be fitted horizontally on the upper part of bathroom and kitchen doors and drawers, even though it can be fitted in other ways. Try combining together two Brikk handles: you could create a crescent shaped lunar look that is really interesting. Rotating around, you could install vertically as a perfect complement for large doors and cupboards. It also works really well fitted about 10 to 15cm (4 to 6in) from the edge of doors and drawers. It is available in 14 different lengths and two types of finish: polished chrome and stainless steel. Which one will you choose to match your interiors?

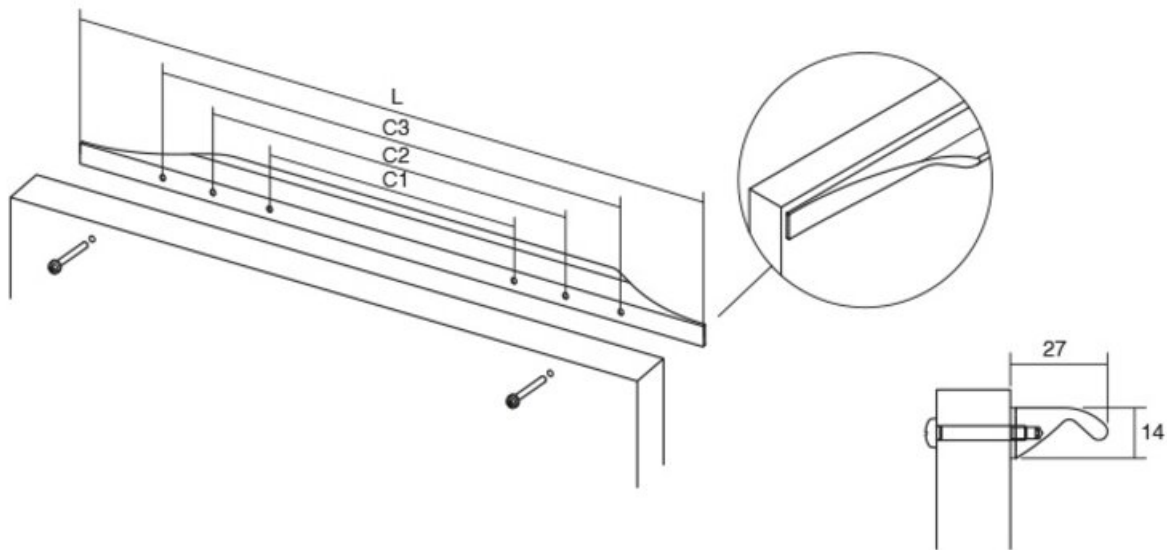

To install it properly, please watch our how to video tutorial.

It belongs to the [Aluminum](#) line. Model [0334](#).  
Designed by [Alexis Vivet](#).
