Product Description

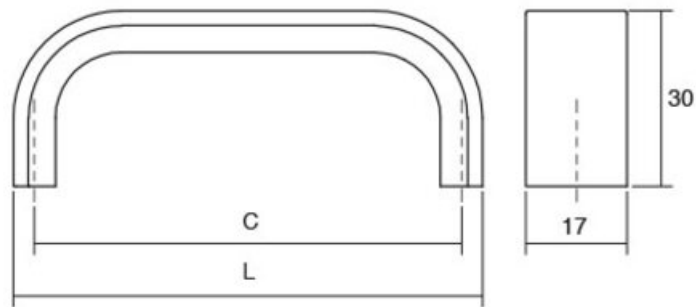

The decoration in minimalist kitchens is based on the essence of the furniture and looks for maximum simplicity. Plain cupboards and drawers, natural timber and walls without a stone finish are key to achieving this type of space. These spaces also need handles that adhere to this philosophy, such as the new Sense Mini. It's a thin, light, aluminum handle with straight lines and slightly rounded edges. We have designed it with the successful Sense model in mind, but with a new look, in this case slimmer and lighter and perfectly adaptable to all types of furniture.
