## Part Number: 25-1010

EZ Ball Pneumatic Insertion Tool

<div><br></div>

### **Product Description**

The EZ Ball Insertion Tool is a pneumatic gun that is a better way to insert SynergySpacers and Spaceballs into your panel door during assembly. No more manual insertion with tiny balls that are hard to handle. Just point and shoot!

#### **Product Advantages**

- · Compatible with Spaceballs and SynergySpacers
- · Quick to insert and easy to use
- Improved ball canister with capacity of 1000 balls
- Pneumatic intersertion with Normal Operating Pressure of 80-140 psi
- Lightweight injection molded plastic body
- Ergonomic design for less fatigue and strain during prolonged usage
- · Includes Talc powder which is to prevent jamming with Spaceballs
- Synergy Spacers DO NOT require the use of Talc powder
