

Universal Case w/ Pluck & Pull Foam

Part Number: TP-CASEPPF

Durable plastic carrying case with stainless steel clasps. Includes inner pluck & pull foam (diced in 3/4" increments) for custom fitment of assorted hand tools.

Product Description

Suitable for storing any fragile hand tools that you need frequently on the job site. Durable rigid plastic case with stainless steel clasps and handle for easy transport. Durable design protects your valuable cabinet hardware jig or tools. Inside is filled with pluck and pull foam, which is diced in 3/4" increments for custom fit of any item.

Originally the installation jig was sold without a hard plastic case, so if that's the case for you, why not pick one up today and protect your tool investment!

- Outer Dimensions 17" x 12" x 3"
- Inner dimensions 16" x 9-3/4" x 2"
